## **KEEP THE OIL AND GAS FLOWING**

- Increase Productivity
- Increase Output
- Reduce Equipment Downtown
- BEKA-MAX Automatic Lubrication Systems ensures proper lubrication while Frac Pump is in Operation

**WE MEASURE OUR SUCCESS BY YOUR UP-TIME**

# BEKA-MAX: Technology You Can Rely On

BEKA-MAX Automatic Lubrication Systems have been specifically developed for mobile applications. All BEKA-MAX products are designed with the durability required for harsh environments found on trucks, agricultural and construction machinery.

## Superior Design:

- Durable - long life and trouble free
- Flexible - range of sizes, outputs and voltages
- Will not pump air, therefore no time consuming purging of lines
- Integrated control simplifies operation

## Superior Quality:

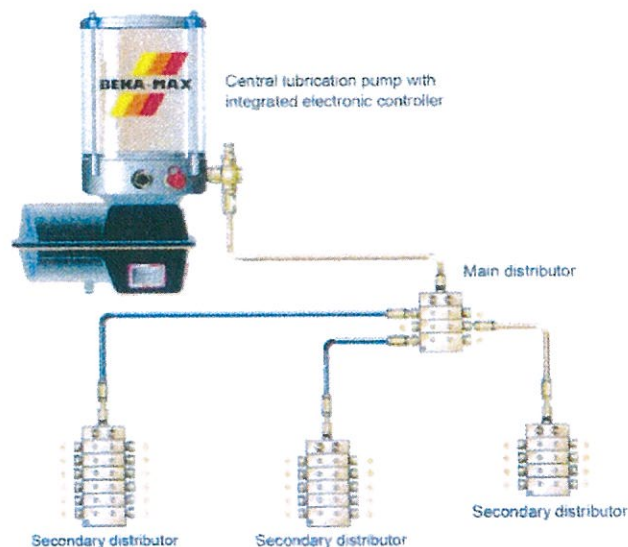

- Premium grade materials; cast aluminum base
- Positive placement pump element; no springs
- Manufactured to ISO 9001:2000 Standards

## Superior Power:

- Large powerful motor
- Capable of pumping EP-2 grease at low temperatures

## Superior Distribution System:

- Progressive distribution system ensures all points are lubricated
- Capable of supplying up to 600 lubrication points using one pump
- Environmental waste kept to a minimum by eliminating manual over greasing

## Customer Satisfaction is our #1 Priority.

BEKA-MAX is today's leading global brand of automatic lubrication systems for industrial, over-the-road and off-road applications. Since 1927, Beka has been trusted by equipment manufacturers and owners for innovative central lubrication systems of the highest quality. Throughout North America, our dealer network delivers on the BEKA-MAX promise of environmentally friendly, trouble free products that increase component life, reduce repair costs and increase the value of your equipment. *We measure our success by your up-time.*
